Kewcheck R2FL - Testing adapter

The Kewcheck R2FL is an adapter designed to make secure connections to circuits being tested. It allows for testing instruments' standard 4mm connectors to be plugged into the adapter. The adapter comes with a fly lead on to which you wire up the appropriate connector / plug to the system being tested.

▲ Just fit your own plug / connector

▲ For use with 4mm connectors

▲ For R1 + R2 and loop testing

▲ Makes testing faster, safer and more accurate
