KEWTECH

Fully featured single function testers that **fits your hand** - a great way to go **18th edition testing**.

Kewtech single function testers, using the latest in technology, provide a slick way to go 18th edition testing. All compact, accurate, easy to use with a 'hands free' facility.

ONLY 185mm

KT300

- Insulation test (50V, 100V, 250V, 500V, 1000V)
- Continuity test with audible tone
- Buzzer mode
- Test lead null facility
- Hands free function
- Voltage present LED
- Automatic backlight
- Auto switch off
- Breakdown voltage function

KT400

- No Trip LOOP L-E test
- High current L-E loop test
- High current, high resolution L-E / L-N loop test
- AC Voltage V_{In} - V_{Ie} - V_{ne}
- Distribution network polarity test
- PFC / PSC measurements
- Hands free function
- Polarity, voltage present LED

KT500

- Tests AC, ACS, A type RCDs
- 30mA Auto test
- Ramp Test
- AC Voltage V_{In}
- Distribution network polarity test
- Result Recall
- Hands free function
- Polarity, voltage present LED
